

The Federal Communications Commission

Dear The Federal Communications Commission,

STOP the madness! The insanity of more taxes to justify your overbearing existence is just nuts. As citizens we are burdened with taxes beyond believe. You should focus on ways to reduce your waste, increase your efficiencies, and cut costs, so that you remain! I do not want to, nor should I have to, pay more for my telephone service!

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I KNOW that this proposal will make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Ryland Heath
